

DORYAN GROUP OF COMPANIES

Top 10 Business Services
Republic of Liberia | Company Services Overview

01 Real Estate Development and Property Management

Doryan Group of Companies provides real estate services focused on property development, management, leasing, and sales. Our business scope includes residential, commercial, and other real estate opportunities that support growing communities and businesses across Liberia.

We aim to help property owners, investors, tenants, and buyers navigate real estate needs through organized property oversight and practical development solutions. Each engagement can be tailored to the property, location, client goals, and applicable regulatory requirements.

02 General Construction and Civil Works

Our construction division covers building construction, roads, bridges, architectural design, renovation, maintenance, and related civil works. The company's incorporation documents also include utility projects, site preparation, and finishing activities.

We seek to support clients from early planning through project execution by coordinating labor, materials, schedules, and quality expectations. Our goal is to deliver functional, durable spaces and infrastructure while following relevant safety and permitting requirements.

03 Building Materials Supply and Manufacturing

Doryan Group of Companies is positioned to supply construction-related materials, including cement, steel rods, zinc, nails, ceramic products, blocks, and other building supplies. Its registered activities also include production of blocks and related construction materials.

This service is designed for contractors, developers, retailers, and individual builders who need dependable access to materials. By connecting supply and construction needs, the company aims to make procurement more efficient and support projects of different sizes.

04 Import, Export, and General Trading

Our trading services encompass the importation, exportation, wholesale, retail, and distribution of a broad range of lawful products. The registered business scope includes machinery, equipment, building supplies, household goods, agricultural products, and general merchandise.

We aim to connect local buyers and sellers with wider markets and sourcing opportunities. Services may include supplier coordination, purchasing support, distribution planning, and trade logistics, subject to customs rules and any product-specific approvals.

05 Transportation, Vehicle Leasing, and Logistics

Doryan Group of Companies includes transportation and logistics activities such as vehicle rental and leasing, commercial trucks, pickups, cargo movement, shipping support, and freight forwarding. The company may also trade in vehicles and heavy-duty equipment.

Our objective is to help businesses and individuals move people, goods, and equipment more efficiently. We plan to emphasize practical scheduling, cargo coordination, and reliable service arrangements appropriate to each customer's transportation needs.

06 Hospitality, Accommodation, and Event Services

Our hospitality scope includes hotels, guesthouses, restaurants, catering, accommodation, reception services, and event-related support. Registered activities also cover hall and equipment rental, including chairs, tables, canopies, and musical sets.

These services are intended to serve travelers, families, organizations, and event planners seeking convenient hospitality and gathering solutions. We aim to combine welcoming customer service with coordinated food, venue, and event arrangements.

07 Agriculture, Food Processing, and Water Supply

Doryan Group of Companies has registered activities in agriculture-related trading, food processing, and the development and sale of safe drinking water. Its incorporation documents also reference purification, sterilization, bottling, storage, and distribution of water.

We aim to contribute to food and water supply chains through responsible sourcing, processing, packaging, and distribution. These activities would be developed in line with applicable food safety, public health, environmental, and operating standards.

08 Mining, Quarrying, and Natural Resources

Our registered business scope includes general mining, quarrying, mineral exploration, excavation, and activities involving sand, gravel, stone, and other natural resources. It also includes timber-related processing and trading activities.

We recognize that natural-resource projects require careful planning, environmental responsibility, and specific governmental approvals. Any projects in this area would be pursued only with the necessary licenses, safeguards, and community considerations.

09 Business Consulting, Accounting, and Professional Support

Doryan Group of Companies includes business advisory services such as management consulting, tax and accounting support, auditing, marketing, and corporate development assistance. The incorporation documents also reference training and technical or vocational activities.

We aim to assist entrepreneurs and organizations with business planning, operational improvement, recordkeeping, and growth strategies. Regulated professional services would be performed by appropriately qualified and licensed practitioners where required.

10 Technical Services, Utilities, and Facility Maintenance

Our technical service offerings may include electrical installation, plumbing, facility maintenance, cleaning, waste management, and related repair or support activities. The registered scope also covers certain utility, equipment, and technical services.

We aim to provide coordinated solutions that help homes, offices, commercial sites, and institutions function safely and effectively. Service delivery would prioritize preventive maintenance, timely response, and compliance with relevant technical and environmental standards.

Business scope note: These service descriptions are based on the activities listed in the company's uploaded Articles of Incorporation. They describe areas the company may pursue, not independently verified services currently operating. Activities requiring licenses, permits, or professional qualifications remain subject to applicable Liberian law.
